...to give your input regarding your training needs and educational goals by completing the questionnaire you received from General Services. Please return these questionnaires to Bonnie Muller.

## DIAGNOSTIC TESTING SERVICES STARTED

Deaf students who are in their junior year and are interested in attending Gallaudet College will be able to take a one-day diagnostic battery of examinations. To be initiated this week, these exams will be given at the same time that the Gallaudet Entrance Examinations are administered to seniors.

These tests have been designed so that those students who perform well will be exempted from taking the exams in their senior year. They

will be granted admission the following year on the submission of satisfactory references, applications, transcripts and audiograms.

This new service will also help students plan their senior year to their best advantage, and also help those students with serious academic deficiencies to begin to make realistic plans for their future.
